

FUNDING AVAILABLE FOR Wetland Restoration

Restore and Protect Your Wetland

Do you have a wetland in need of some TLC? The Waiora Manuherehia Project is offering one-off funding to support wetland restoration efforts. Whether it's fencing, weed control, or replanting native species, we're here to help you enhance and protect these vital ecosystems.

Why Wetlands Matter

Wetlands play a crucial role in catchment health, including flood management, water quality improvement, and providing habitats for native species. Unfortunately, many wetlands have been disappearing over time. We're committed to reversing this trend by supporting landowners and farmers in their restoration efforts.

Who Can Apply?

We're looking for landowners and farmers who are passionate about improving their wetlands. If your wetland matches our criteria, you could receive funding to help with your restoration project — there are no catches!

How to Apply

Expressions of interest will open soon. Stay informed by visiting www.mcg.org.nz/waiora-manuherehia, signing up for our newsletter and following us on Facebook for updates.

Make a Difference

This is a unique opportunity to improve the health of our local wetlands. Don't miss out on your chance to get involved and receive support for your wetland restoration project.
